REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for synchronizing timing in a broadband switch. Each independent claim identifies the uniquely distinct features: regarding claim 1, wherein synchronizing the plurality of switch cards in response to communications with the line cards includes, synchronizing the slave switch cards to the master switch timing reference in response to communications with the master line card, and establishing communications exclusively between the switch cards and the line cards; regarding claim 12 (originally filed claim 15), wherein the plurality of line cards include a master line card and slave line cards; wherein the slave switch cards maintain synchronization in response to timing signal communications with the master line card; and wherein the switch card control ports are connected exclusively to line card control ports. The closest prior art, Moody et al. (US 6,229,886) and Lee (US 6,760,586) disclose conventional communication systems, either singularly or in combination, fail to anticipate or render the above features obvious..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kwang B. Yao whose telephone number is 571-272-3182. The examiner can normally be reached on M-F.
